# WHO WE ARE

## PROTECTING THE FUTURE OF CAYMAN'S HERITAGE

The National Trust for the Cayman Islands was established in 1987 with the purpose to preserve natural environments and places of historic significance in the Cayman Islands for present and future generations of the nation.

### ENVIRONMENT

Our first priority for Cayman's natural environment is the establishment of a system of protected areas. These nature sites are essential for the survival of native plant and animal species.

### HISTORY

Through the preservation of historic sites in the Cayman Islands, we safeguard our unique heritage.

### EDUCATION

Adults and children alike are exposed to Cayman's natural environment and heritage through lectures, historic walking tours, a dedicated student programme, a herbarium and an insectarium.

### CONSERVATION

Scientific field research allows us to study and further our knowledge of Cayman's native and indigenous species and to protect the habitats in which they live.

MANDATED TO  
PROTECT WHAT MAKES  
THE CAYMAN ISLANDS  
UNIQUE FOR PRESENT  
AND FUTURE  
GENERATIONS.

# WHY WE NEED YOUR HELP

## BECOMING A DEFENDER OF CAYMAN'S HERITAGE & NATURAL ENVIRONMENT

What makes the Cayman Islands special?

To some, it's the pristine beaches; to others, it's our bustling tax-free economy. But to all, it is our unique wild environment.

It is the rare and dear blue iguana; the majestic Mastic Reserve; and the colony of 20,000 Red-Footed Boobies in Little Cayman. It is the historic homes and heritage sites that celebrate Cayman's early years.

Preserving our built and natural heritage would not be possible without the support of our corporate partners.

By choosing to support the National Trust, your business:

- Aids in the purchase and protection of wild environments and the flora and fauna which live within;
- Enables the careful preservation and ongoing maintenance of iconic historic buildings;
- Facilitates public education of our environments and heritage; and
- Provides the means for us to offer guided tours at minimal cost for all to enjoy.

## BESPOKE PACKAGES

We can customize a bespoke sponsorship packaged based on your budget and services.

# LAND RESERVE FUND

## HELP US BUY BACK CAYMAN!

We are the only local organisation committed to the stewardship of undeveloped land with a focus on establishing a system of protected areas in the Cayman Islands. Our Land Reserve Fund launched in 2010 with the goal to acquire designated high priority environmental areas for protection under the National Trust for the Cayman Islands Law (1987).

For 33 years the National Trust for the Cayman Islands (NTCI) has been safeguarding Cayman's precious ecosystems, flora and fauna by preserving key habitats across our three islands.

The NTCI **currently preserves just under 6% of land in Cayman but has an ambitious target of protecting 11% in total** – so we still have much to accomplish. With land prices ever increasing, and development and land clearing on the increase we desperately need your help to secure much needed funding to help protect critical habitat.

The land purchased through the programme is generally deemed ecologically important and may be under threat of rapid urban development. Our **Mastic Reserve** and **Salina Reserve are two key environmental sites** which have been largely acquired through the Land Reserve Fund. Without these areas, the ecosystems and the species contained therein would be lost forever; and without the generous donations of our members, corporate partners and members of the public, we would not be able to continue our work to preserve our biodiversity and native habitats.
