About the National Trust for the Cayman Islands

The National Trust for the Cayman Islands is a non-governmental organization whose mandate under the National Trust Law (2010 Revision) includes the preservation of the historic, natural and maritime heritage of the Cayman Islands for present and future generations.

About the Blue Iguana Conservation Programme

The Blue Iguana Recovery Programme began in 1990 with only 30 dedicated Blue Iguanas and the primary goal to restore the wild population to 1,000 Blue Iguanas, encouraging viable population in the long-term. Having met its primary goal in 2018, the initiative formally transitioned to the Blue Iguana Conservation Programme in 2019 with a new focus of sustainably conserving the native species of Grand Cayman.

About the National Trust's Environmental Programme

The National Trust for the Cayman Islands' environmental programme was founded on the concept that the protection of native plants and animals is best achieved by protecting the natural areas in which they depend.

About the National Trust Conservation Programme

The National Trust for the Cayman Islands' conservation programme strives to protect Cayman's native species and the habitats in which they live, and includes the endemic Blue Iguana of Grand Cayman, the Sister Islands Rock Iguana and Cayman's native bat species.
