WE ARE PROUD TO INTRODUCE

E-IGUANA

A CITIZEN SCIENCE MOBILE APP FOR CONSERVATION

WHAT IS E-GUANA?

E-GUANA IS A FREE APP FOR EVERYONE!

E-guana

**SUBMIT IGUANA SIGHTINGS
ACROSS THE 3 ISLANDS,
LEARN ABOUT THE IGUANA SPECIES
IN CAYMAN**

AND BECOME A CITIZEN SCIENTIST

**to help research and conserve
Cayman's iconic wildlife**

WHY E-GUANA?

BLUE IGUANA CONSERVATION is seeking your assistance, whether you are living in, or visiting, the Cayman Islands

REPORT SIGHTINGS OF ALL IGUANA SPECIES around the Cayman Islands!

WITH YOUR HELP, WE WILL RECEIVE MORE VITAL DATA TO ENABLE ACCURATE NUMBERS OF IGUANAS AND RESPOND TO REPORTS IN REAL-TIME

3. SUBMIT IGUANA SIGHTINGS

The screenshot shows a mobile app interface for submitting a sighting. The form includes the following fields and options:

- Species:** A dropdown menu with "Green Iguana" selected.
- Date and time of sighting:** Two input fields showing "03-02-2022" and "01:53 PM".
- Location of sighting:** A text input field with a location pin icon and a "Get my location" button.
- Weather:** A dropdown menu with "Sunny, Overcast or Raining" selected.
- Dead or Alive?:** A text input field.
- Details about the sighting:** A question "Does iguana have ID beads on its neck?" with radio buttons for "Yes" (selected) and "No".
- Number Seen:** A text input field.
- Other Information:** A large text input field.
- Upload photos:** A dashed box containing a photo icon and the text "Upload a photo".

Callout labels with arrows point to these fields:

- Species
- Location of sighting
- Details about the sighting
- Date and time of sighting
- Weather
- Upload photos
- and SUBMIT!

Please review our Privacy Policy within the E-guana app

HOW TO USE E-GUANA

**1. DOWNLOAD
E-GUANA
FREE NOW!**

*only available on smartphones and tablets

2. Learn the IGUANA SPECIES found in the Cayman Islands, discover how you can help IGUANA CONSERVATION and find out about THE NATIONAL TRUST FOR THE CAYMAN ISLANDS

WHAT HAPPENS WITH THE DATA?

After you submit a sighting of an iguana, we can use the data to identify:

- **WILD IGUANA LOCATIONS**
- **HOW MANY IGUANAS OF EACH SPECIES**
- **HOW FAR THEY TRAVEL**
- **PREFERRED HABITAT AREAS AND BREEDING SITES**
- **INDIVIDUAL TERRITORIES**
- **HOW THEIR THREATS AFFECT THEM IN SPECIFIC AREAS**

...AND SO MUCH MORE!
