

FOR IMMEDIATE RELEASE

Unique Cayman Nature-Inspired Jewellery Collection Designed by Celine Cousteau and Susan Foster released

22 January 2026 – Cayman Nature-Inspired Jewellery Collection *Blu Lagartos* designed by Celine Cousteau and Susan Foster, has been released for sale. Nature and heritage intertwine with a striking and meaningful 12-piece limited-edition fine jewellery collection, *Blu Lagartos*, designed by Celine Cousteau — descendant of a family with a legacy of activism and exploration, and jewellery designer Susan Foster — whose familial Caymanian heritage dates back to the early settlers of the 1700's. The nature-theme created for the collection is directly inspired by the endangered and protected flora and fauna of the Cayman Islands, such as the Blue Iguana, the Wild Banana Orchid — Cayman's national flower, and Sybil's Crown Beard — a rare flowering plant found only on Cayman Brac.

Susan Foster, who has had an illustrious career as a jewellery designer, her designs have graced the pages of Vogue, Elle, Marie Claire, Harper's Bazaar, InStyle and other eminent publications. Her pieces have adorned many of Hollywood's elite including Kate Hudson, Renee Zellweger, Kerry Washington and Zoe Salanda. Foster suspended retirement to design this meaningful nature inspired collection, in collaboration with Celine Cousteau, as a philanthropic endeavor. Foster, embarked on a journey of reconnecting with her roots, and exploring the natural beauty and wildlife of the Cayman Islands, and spent time at the Blue Iguana Conservation facility drawing inspiration for the unique designs and exceptional craftsmanship of the collection that pays homage to Cayman's natural beauty and heritage.

The collection will be featured at the National Trust Blue Tie Dinner on display in a private room as part of the "Blue Tie Dinner", which will be held on Saturday, 31 January, 6:30 pm at Grand Old House. Guests will have an exclusive opportunity to purchase from the collection on the night of the event, and all net proceeds will go directly to the

National Trust. A limited number of tickets are available for this elegant dinner featuring the award-winning cuisine of the Grand Old House including fine wine, from the National Trust office or online at nationaltrust.org.ky/blue-tie-dinner-save-the-date-31-january-2026/

This elegant tribute celebrates both the legacy of the National Trust protecting Cayman's rich biodiversity and ecosystems, and Foster's long-standing heritage. Every adornment carries purpose.

We invite the community to join us for a night of celebrating Cayman's wildlife, an opportunity to support National Trust fundraising initiatives, and make an impact. Together, we continue to safeguard our national treasures.

Thank you to our event sponsors:

Headline Sponsor: Walkers

Gold Sponsors: Knighthouse International and Department of Tourism

Silver Sponsors: The Ritz-Carlton Grand Cayman, Ambassadors of the Environment, Ministry of Health, Environment and Sustainability, and CUC

About the National Trust for the Cayman Islands

The National Trust for the Cayman Islands is a non-governmental organization whose mandate under the National Trust Law (2010 Revision) includes the preservation of the historic, natural and maritime heritage of the Cayman Islands for present and future generations.

About the Blue Iguana Conservation Programme

The Blue Iguana Recovery Programme began in 1990 with only 30 dedicated Blue Iguanas and the primary goal to restore the wild population to 1,000 Blue Iguanas, encouraging viable population in the long-term. Having met its primary goal in 2018, the initiative formally transitioned to the Blue Iguana Conservation Programme in 2019 with a new focus of sustainably conserving the native species of Grand Cayman.

About the National Trust's Environmental Programme

The National Trust for the Cayman Islands' environmental programme was founded on the concept that the protection of native plants and animals is best achieved by protecting the natural areas in which they depend.

About the National Trust Conservation Programme

The National Trust for the Cayman Islands' conservation programme strives to protect Cayman's native species and the habitats in which they live, and includes the endemic Blue Iguana of Grand Cayman, the Sister Islands Rock Iguana and Cayman's native bat species.

About the National Trust Historic Preservation Programme

The National Trust for the Cayman Islands introduced the launching of its *Historic Preservation Fund* at its Annual General Meeting in September 2021 for the purpose of inviting increased support of its continuing efforts to encourage the preservation and protection of historic homes and buildings for present and future generations of the Cayman Islands.
